

ישראל - צרפת - תכנית דו לאומית למחקר ופיתוח

מאי 2015
חוזר מקצועי מספר 44/15

The Call is launched on March 25th, 2015 and invites partners to present joint proposals for R&D projects. The **first cut-off date** for phase 1 submissions will be **June 8th, 2015**, and the **second cut-off date will be November 26th, 2015**.

The program is open for joint industrial R&D projects between Israeli and French companies in all technological fields

The submission and the approval procedures will be carried out in two phases:

- A short project outline should be submitted by the respective cut-off date to ISERD (The Israel-Europe R&D Directorate) and to BPIfrance. The outlines will be screened and evaluated by a joint appraisal committee.
- Israeli and French partners which have successfully passed the first phase will be invited to submit at a later date detailed national funding applications to their respective national funding agency.

The France-Israel Industrial R&D Cooperation Framework (FIRAD) promotes R&D collaboration between French and Israeli companies interested in jointly developing and commercializing new, innovative products, applications or services. FIRAD's mission is to foster collaborative R&D links between French and Israeli science and technology organizations and to assist in the establishment of long term French-Israeli alliances based on technological cooperation.
